SKILLS

Technical

- SolidWorks, Fusion360
- Multisim, Proteus
- Arduino
- PLC
- Microsoft 365

Languages

- Spanish (Native)
- English (Advanced)

Competencies

- Project Management
- Leadership
- Problem Solving
- Continuous Learning

OBJECTIVES

- Python
- Linux
- Azure DevOps

PROFESSIONAL PROFILE

Mechatronics Engineer specialized in robotics, design, and prototyping. Experience in electronic systems integration, microcontroller programming, and 3D design. I have collaborated in innovation environments and technology startups, successfully developing functional products and taking ideas from design to physical implementation.

EXPERIENCE

Creative Maker Design (Freelance) Present
Independent Prototype Development

- As an independent developer, I specialize in the design and prototyping of integrated systems combining hardware, mechanical design, and programming to create functional solutions. I participate throughout the entire technical cycle, from CAD modeling to fabrication through 3D printing and post-processing.

Construction Site Supervisor(Painting and Lightweight Structures) 2023 – 2025
Coss y León Obra | ArtPark Torre Bermellón – Zapopan

- Led the technical execution of painting and lightweight structural works, coordinating teams of over 30 workers. My primary focus was resource optimization and minimize installation errors and delays, ensuring schedule compliance under high operational pressure.

Product Design – mHUB Chicago Member 2022
Advanced Manufacturing Innovation Center

- During my time as a member at mHUB, I collaborated closely with founders from different startups to help transform their ideas into tangible products. I was involved throughout the entire process, from the design and assembly of initial functional prototypes to solving real-world manufacturing challenges.

EDUCATION

Mechatronics Engineering 2018 – 2022
Centro de Enseñanza Técnica Industrial (CETI), Guadalajara

Automation Control and Instrumentation Technologist 2014 – 2018
Centro de Enseñanza Técnica Industrial (CETI), Guadalajara
